Deluxe Mesh Ergonomic Office Chair with Headrest

$229.00

Mesh Ergonomic Office Chair with Headrest
Comfortable, sturdy and adjustable, this office chair is your answer to spending long hours at the office. It has a head rest, adjustable lumbar support and height, plus castors. The sleek, classic design will work in any space, whether at home or in a commercial setting.

The seat cover is made from ultra-durable, breathable and flexible mesh. The seat itself is constructed from foam over a plywood base with plastic and metal frame beneath.

The standard castors can be used on any flat surface - floor boards, concrete etc., but we nonetheless recommend the Heavy Duty Office Chair Mat to avoid scratching or damaging hard floors.
